Dear Josh & Esther:

Josh: enclosed are copies of curriculum vitae incorporating changes which you suggested. As things are at present, I will not be able to arrange an invitation for Peter before mid Dec. I am working on it though.

Esther: I believed mentioned to you that Drs. Lichten & Johanson of this dept were interested in becoming members of the SGM. I have nominated them (on the enclosed forms). I will consider it a personal favor if you will second these applications.

To all: Giuseppe is off to Ch. diagnost today & tomorrow. He will spend some time in Chicago. He will take a western trip Nov 6 - Nov 18 and will be in Madison Nov 21. He leaves Nov 26 for NY. So you can see that the experimental collaboration is nearly over. I will write details later.

Thank you both for your consideration.
My very best regards, as always, Saylen
